# Guess Who's Coming To Dinner?

SOUTH AFRICA

On Tuesday June 29th, 1976, at 6PM, the "100 Black Men" (?) of New York City are hosting a dinner for Helen Suzman, the noted "lady liberal" of South Afrika, and Andrew Hatcher, formerly Assistant Press Secretary for the Kennedy Administration. Both of these people - we believe - serve the interests of the apartheid racist regime of Balthazar Johannes Vorster, the Prime Monster of South Afrikka!

SOUTH AFRICA

Helen Suzman, who has been touring the U.S. calling for reforms of the vicious apartheid system in South Afrika, has been a spokesperson for that country's "Progressive Party" for over a decade. Among this party's "progressive" reforms would be the equating of the franchise with income and education qualifications for all voters, a program to ease the frustrations of the Black majority but still prolong white-minority rule. It would not necessarily lead to majority rule, but would give the world a sense of progress being made in that vile racist state that calls itself "the Republic of South Afrika." It is a program designed to hold back the democratic process that is the just demand of the Afrikan Revolution now going on throughout southern Afrika.

Mrs. Suzman is one of the few politicians sanctioned by the white racist minority-government to speak out against apartheid, gaining a great deal of publicity about her activities and causing many outsiders to believe that real protest and serious criticism is tolerated in South Afrika. Publicity about her activities help South Afrika to pose itself as some sort of democracy where all views are debated freely.

But the Sharpeville Massacre of March 21st, 1960 and the Soweto Massacres just recently have shown us what happens to Black People in South Afrika when they speak out against the apartheid system.

The imprisonment of African National Congress leader Nelson Mandela on Robben Island and the House Arrest detention of Pan-Africanist Congress leader Robert Sobukwe have illustrated to us what happens to Afrikan spokesmen when they truly defy the apartheid system in South Afrika.

The countless jailings of South Afrikan activists by the infamous "Suppression of Communism Act", the cases of the "SASO 9", "SWAPO 6", "NUSA 2", etc. have taught us what does happen to anyone who really tells it like it is in South Afrika.

Helen Suzman's presence - whether in South Afrika or the U.S. - is like a lighting rod, whose aim is to draw the world's attention away from the real protesters against apartheid.

But Helen Suzman serves another purpose in South Afrika. The fact that she happens to be Jewish is usually played up; this is so that the 120,000 Jews in South Afrika are identified with Black aspirations for a democratic society. But in reality, the real representatives of the Jewish community within South Afrika express themselves through the South Afrikan Jewish Board of Deputies - and this group supports apartheid all the way in exchange for them being able to send money to Israel. Next to the Jews in the U.S., the Jews of South Afrika are said to be the second largest contributor to the Zionist state. As financiers and business leaders in South Afrika - especially in Johannesburg, they can well afford it. And Helen Suzman can well afford to continue to call out for her meager reforms of the world's most brutal and vicious system that continues to exploit and humiliate our People.

Andrew Hatcher is another matter. This former JFK Press Secretary now works for Sidney Barron Public Relations, a firm which has as one of its accounts the apartheid regime of South Afrika. Last Wednesday, June 23rd, while thousands of People were preparing to demonstrate in various parts of the country to denounce Kissinger's meeting with Vorster, (in light of the Soweto Massacre), Hatcher was on the "Today Show" - NBC network program - promoting South Afrika!
